College of Education for Women/ University of Basrah

Abstract

The research aims to clarify the roots of the first and beginning of the student movement in Iran since the beginning of the nineteenth century coincided with the ruling State Qajar focused on the cultural and political influence and education outside the country on the first groups of university students who went to study in Europe, especially in the mid-nineteenth century and who after their return floated Modern beliefs in the field of education within Iran by assigning them in higher education and educational institutions in universities and schools, as well as worked on the deployment of political and social reforms through constitutional revolution opened new doors to education within the country.

In the first half of the twentieth century Pahlavi power and on the basis of modernization of education tried to eliminate the national elements of democracy and these things have been turned against the system so that some of those who Hsoa their education abroad, such as the Tudeh Party and the National Front.
