

A step forward towards improving skills & knowledge

In the last year a new phenomenon started to exist in the form of medical groups in different fields of medicine, from UK & the United States, visiting AL-Husain general hospital, on the behalf of ministry of health & ministry of higher education.

Last month prof.Assad Abed Own (hepato-biliary surgeon) & Dr. Jointly with our surgical team carried out super-major surgical procedures (hepatic resection & repair of post-laparoscopic CBD injury) with successful outcome.

A lecture in ENT was conducted by Prof.Bassim Al-shihabi to the fifth medical students

Other teams are being arranged for to come in during the few coming months.These sorts of workshop will improve our surgical skills and training &keep us well with update advances in surgical practice.
